

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Registration Division (7505P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

89459-10

Date of Issuance:

03/19/2015

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

RF2162 Premium Aerosol

Name and Address of Registrant (include ZIP Code):

James McFadden, Ph.D
 Central Garden & Pet
 1501 East Woodfield Rd., Suite 200W
 Schaumburg, IL 60173

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Kable Bo Davis, Product Manager 3
 Invertebrate & Vertebrate Branch 1
 Registration Division (7505P)

Date:

03/19/2015

2. You are required to comply with the data requirements described in the DCI identified below:
 - a. Pyrethrins GDCI-069001-1058
 - b. Tetramethrin GDCI-069003-1150
 - c. Piperonyl butoxide GDCI-067501-1063

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division: http://www.epa.gov/oppsrrd1/contacts_prd.htm

3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.
4. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 89459-10.”
5. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 04/28/2014
- Alternate CSF #1 dated 04/28/2014

If you have any questions, please contact Maggie Rudick at (703) 347-0257 or rudick.maggie@epa.gov.

SUBLABEL A – OCCUPATIONAL USE

RF2162 PREMIUM AEROSOL

For use in and around homes, garages, kennels, out buildings, barns, and apartment buildings, and the non-food/feed areas of hotels, stores, warehouses, office buildings, schools, nursing homes, hospitals, industrial buildings, vessels, rail cars, trucks, trailers, and aircraft (do not use in aircraft cabins)

Contains Synergized Etofenprox, Pyrethrin and Tetramethrin

Provides Quick Killing Action

Kills Quickly on Contact

Economical Do-It-Yourself Pest Control

Use Indoors and Outdoors

360° coverage

360° valve allowing upside down spraying capability

Flushes Cockroaches from Where They Hide

Kills Fleas - Cockroaches – Ants*

Kills fire ants, argentine ants, and carpenter ants

Kills Bed Bugs and their eggs

Kills on Contact - Kills Fast

Kills Wasps and Yellow Jackets

A broad spectrum insecticide highly effective against Ants*, Carpet Beetles, Bedbugs, Cockroaches, Crickets, Earwigs, Fleas, Flies, Flour Beetles, Grain Beetles, House dust mites, Pillbugs, Sowbugs, Spiders (including Black widow, Brown Recluse), and many other listed crawling insects

Low Odor

Kills bed bugs and fleas within 5 minutes

*excluding pharaoh and harvester ants

ACTIVE INGREDIENTS:

Pyrethrins (CAS #8003-34-7)	0.15%
Tetramethrin (CAS #7696-12-0).....	0.25%
Etofenprox (CAS #80844-07-1).....	1.00%
Piperonyl Butoxide* (CAS #51-03-6).....	1.50%
OTHER INGREDIENTS**:	<u>97.10%</u>
Total	100.00%

* (butylcarbityl)(6-propylpiperonyl) ether and related compounds

** Contains petroleum distillates

KEEP OUT OF REACH OF CHILDREN

CAUTION

See Side Panel For Additional Precautions

NET CONTENTS:

EPA EST. NO.

BATCH/LOT NO:

PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS & DOMESTIC ANIMALS
CAUTION

Causes moderate eye irritation. Harmful if swallowed. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Repeated exposure to etofenprox can cause skin irritation.

Personal Protective Equipment (PPE):

Applicators must wear

- Long-sleeve shirt,
- Long pants,
- Shoes and socks

User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

FIRST AID	
IF IN EYES:	<ul style="list-style-type: none">•Hold eye open and rinse slowly and gently with water for 15-20 minutes.•Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.•Call a poison control center or doctor for treatment advice.
IF SWALLOWED	<ul style="list-style-type: none">•Immediately call a poison control center or doctor.•Do not induce vomiting unless told to do so by a poison control center or doctor.•Do not give any liquid to the person.•Do not give anything by mouth to an unconscious person.
Note to Physician: Contains petroleum distillates. Vomiting may cause aspiration pneumonia.	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this product, (including health concerns, medical emergencies or pesticide incidents), you may also call 1-800-xxx-xxxx, twenty-four (24) hours per day, seven (7) days per week.	

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to or near water. Drift and runoff may be hazardous to fish in water adjacent to treated areas. See Directions for Use for additional precautions and requirements. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THE ENTIRE LABEL PRIOR TO USE. USE STRICTLY IN ACCORDANCE WITH ALL USE RESTRICTIONS AND DIRECTIONS.

USE RESTRICTIONS

Do not enter or allow others to enter until sprays have dried.

Remove or cover exposed food and drinking water before application.

Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.

Do not water the treated area to the point of runoff.

Do not use in aircraft cabins.

Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack and crevice treatment. During application, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters.

All outdoor applications, if permitted elsewhere on this label, must be limited to spot or crack-and-crevice and void treatments only, except for the following permitted uses, if allowed elsewhere on this label:

1. Applications to soil or vegetation, as listed on this label, around structures;
2. Applications to the side of a building, up to a maximum height of 3 feet above grade
3. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure
4. Applications around potential pest entry points into buildings, when limited to a surface band not to exceed one inch in width;

To apply at the maximum application rate, spray for 24 seconds to cover an area of 5' X 10' (50 sq ft)

USE INFORMATION: RF2162 Premium Aerosol provides effective kill of listed pests in and on buildings and structures and their immediate surroundings and on modes of transport. Permitted areas of use: apartment buildings, homes, hospitals, and the non-food/feed areas of hotels, industrial buildings, laboratories, mausoleums, motels, nursing homes, private residences, schools, stores, utilities warehouses, and in non-food areas of restaurants, food manufacturing, processing, and servicing establishments, and on: vessels, rail cars, aircraft (do not use in aircraft cabins), buses, trucks and trailers.

INDOORS

Hold container with nozzle pointed away from you. For applications as a crack and crevice, or void treatment, insert supplied extension tube into actuator and apply product. For application as a spot spray, use supplied alternate actuator. Press valve down and spray surface until slightly wet (at a rate of 2 seconds to treat approximately 1 linear foot of baseboard area). May be sprayed upright or upside down to facilitate application. Repeat treatments to infested areas as necessary at intervals of 14 days or greater.

To kill Cockroaches, Ants, (excluding pharaoh and harvester ants) Brown Marmorated Stink bugs, Asian Lady Beetles, Crickets, Earwigs, Fleas, Spiders and Sowbugs: Apply as a crack and crevice, void or spot treatment in areas where these pests crawl and hide, especially-on hidden surfaces around sinks and storage areas, along and behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, and on the underside of shelves, drawers, bookcases and other areas where pests are seen.

Ants: (excluding pharaoh and harvester ants) Spray around ant trails and mounds, doors and windows and other places where ants enter premises. Spray around nests hidden under steps, brickwork, concrete, landscape material, retaining walls, etc. Break apart accessible nests and spray on and around debris.

Fleas in Buildings: Apply to infested areas such as pet beds and resting quarters, nearby cracks and crevices, under the edges of rugs and floor coverings, between and under cushions of upholstered furniture and other areas where fleas may be present. As a broadcast application for fleas, spray at the maximum rate of 24 seconds to cover an area of 5' X 10' (50 sq ft). Do not allow pets to reoccupy treated areas until treated surfaces have thoroughly dried. Remove old pet bedding and replace with clean fresh bedding after treatment of pet areas. . DO NOT USE THIS PRODUCT DIRECTLY ON DOMESTIC/COMPANION ANIMALS (DOGS, CATS, PUPPIES OR KITTENS). Treat dogs and cats with a flea and tick control product before allowing them to reenter the treated area.

House Dust Mites: Apply as a surface application to carpeting, drapes, inside and on box springs, under beds, and flooring or other harborage sites at the rate of 16 ounces per 500 ft². [RF2162 Premium Aerosol] may be applied as a spot treatment to mattresses, focus applications on seams and folds. Do not use [RF2162 Premium Aerosol] directly on mattresses, pillows, bed linens or clothes. Do not saturate the mattress; and do not treat entire surface area of mattress. Allow mattress to dry thoroughly before replacing bedding.

Wasps and Yellow Jackets: Apply as a crack and crevice or void application using the supplied extension tube inserted into the actuator. Apply in indoor locations such as attics, steeples, mechanical rooms, barns, sheds, non-food/non-feed warehouses, garages, and carports, or in walls. Do not apply as surface application to walls or other surfaces. Spray into crack, crevice or void area until thoroughly wet.

Spiders (including Brown Recluse & Black Widow): Apply along voids and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

Earwigs, Flies, Mole Crickets, Pillbugs, and Sowbugs: Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

Pantry Pests - Exposed Stages of Sawtoothed Grain Beetles, Flour Beetles (Red and Confused), and Cigarette Beetles: Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of shelf paper, food and utensils.

Carpet Beetles (Black, Furniture and Varied): Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

Bed Bugs – Thoroughly inspect areas of suspected bed bug infestation and note potential harborage sites or actual infestations. [RF2162 Premium Aerosol] kills bed bugs and their eggs

Apply [RF2162 Premium Aerosol] on mattresses as a spot treatment to mattress seams, edges, and tufts of bed only. Do not use [RF2162 Premium Aerosol] directly on mattresses, pillows, bed

linens or clothes. Do not saturate the mattress; and do not treat entire surface area of mattress. Allow mattress to dry thoroughly before replacing pillows and/or bed linens.

Bed bugs may also harbor in areas of the room away from the bed. Apply [RF2162 Premium Aerosol] as a crack and crevice, void, or spot application where evidence of bed bugs occurs. This includes bed frames, box springs, inside empty drawers and clothes closets, night stands and other furniture in the room, carpet edges, high and low wall moldings (such as floor molding or window casings), wall voids, behind wall hangings and mirrors, wallpaper edges and popcorn ceilings. Remove all clothes and other articles from dressers or closets before application. Take bed apart. Treat joints and channels if hollow, such as square or round tubing, and see that interior framework is treated. Apply [RF2162 Premium Aerosol] as a surface application to carpeting, drapes, and flooring at the rate of 16 ounces per 500 ft². Allow all treated areas to dry thoroughly before use.

If evidence of bed bugs is found in/on mattresses, use products approved for full coverage. Use [RF2162 Premium Aerosol] only for spot treatments.

OUTDOORS

Point spray nozzle away from face. Hold can on slight downward angle. For best results, spray when air is calm. Spray with wind if breeze is blowing.

PESTS ON OUTSIDE SURFACES OF BUILDINGS – [To kill] [For control of building infestation due to] Ants (including carpenter ants, but excluding pharaoh and harvester ants), Cockroaches, Brown Marmorated Stink bugs, Asian Lady Beetles, Crickets, Earwigs, , Flies and Sowbugs (Pillbugs): Spray pests directly or spray foundation of buildings where insects are active and may find entrance up to a height of 2 to 3 feet and 2 to 3 feet out. For ants, (excluding pharaoh and harvester ants) spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray on and around debris. [RF2162 Premium Aerosol] may be applied as a spot, crack and crevice, or void treatment to outside surfaces. Apply as a spray to outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) screens, window frames, eaves, porches, patios, garages and refuse dumps. Repeat treatment as necessary but not more than once per week.

TO KILL WASPS AND YELLOW JACKETS under eaves, screens, window frames, doors, patios, cracks, holes or crevices wherever insects are noticed, spray for about 1 -2 seconds or until surfaces are moist using the supplied extension tube inserted into the actuator. To prevent entrance of insects into the house, spray around points where insects enter such as outside plumbing, faucets, etc., and cracks or crevices in foundation up to a maximum height of 3 feet, as well as along sills and ledges.

For best results, spray in early morning or late evening when insect activity is minimal. Stand a safe distance from nest and not directly underneath. Hold can upright with extension tube in actuator and point spray opening toward nest with wind at your back. Spray until nest is thoroughly saturated to kill the entire nest population. Wait at least 24 hours before removing the nest.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Do not store near heat or open flame. Store in cool dry (preferably locked) area that is inaccessible to children and animals.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

Seller warrants that this product conforms to the chemical specifications expressed on the label. To the extent consistent with applicable law, Seller makes no other warranties and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, seller's liability for default, breach, or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

[NOTICE: This product contains a chemical known to the State of California to cause cancer] (Basic formula only) (in red print on label)

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also call 1-800-xxx-xxxx for emergency medical treatment information.	

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic organisms, including fish and aquatic invertebrates. Do not contaminate water when disposing of equipment, washwater, or rinsate. See Directions for Use for additional precautions and requirements.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THE ENTIRE LABEL PRIOR TO USE. USE STRICTLY IN ACCORDANCE WITH ALL LABEL PRECAUTIONS AND DIRECTIONS.

USE RESTRICTIONS

Do not make applications during rain.

Do not wet articles to point of runoff or drip.

Do not use treated article until spray has dried.

Do not allow adults, children, or pets to enter the treated area until sprays have dried.

Remove or cover exposed food and drinking water before application.

Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.

Do not water the treated area to the point of runoff.

All outdoor applications must be limited to spot, crack-and-crevice or void treatments only, except for the following permitted uses:

- 1) Treatment to soil or vegetation around structures;
- 2) Applications to building foundations, up to a maximum height of 3 feet and two to three ft out

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot, crack-and-crevice or void applications only.

To apply at the maximum application rate, spray for 24 seconds to cover an area of 5' X 10' (50 sq ft)

USE INFORMATION: RF2162 Premium Aerosol provides effective kill of pests in and on buildings and structures and their immediate surroundings. Permitted areas of use: homes, garages, kennels, out buildings, barns and apartment buildings

INDOORS

Hold container with nozzle pointed away from you. For applications as a crack and crevice or void treatment, insert supplied extension tube into actuator and apply product. For application as a spot spray, use supplied alternate actuator. Press valve down and spray surface until slightly wet (at a rate of 2 seconds to treat approximately 1 linear foot of baseboard area). May be sprayed upright or upside down to facilitate application. Repeat treatments to infested areas as necessary at intervals of 14 days or greater.

To kill Cockroaches, Ants, (excluding pharaoh and harvester ants) Brown Marmorated Stink bugs, Asian Lady Beetles, Crickets, Earwigs, Fleas, Spiders and Sowbugs: Apply as a crack and crevice, void or spot treatment in areas where these pests crawl and hide, especially-on hidden surfaces around sinks and storage areas, along and behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, and on the underside of shelves, drawers, bookcases and other areas where pests are seen.

Ants: (excluding pharaoh and harvester ants) Spray around ant trails and mounds, doors and windows and other places where ants enter premises. Spray around nests hidden under steps, brickwork, concrete, landscape material, retaining walls, etc. Break apart accessible nests and spray on and around debris.

Fleas in Buildings: Remove and destroy pet's old bedding and replace with clean, fresh bedding after treatment of pet areas. Apply as a crack and crevice treatment to infested areas such as pet beds, sleeping quarters of pets, around baseboards, windows and door frames, local areas of floors (under the edges of rugs and floor coverings), and between/under cushions of upholstered furniture. As a broadcast application for fleas, spray at the maximum rate of 24 seconds to cover an area of 5' X 10' (50 sq ft). Do not allow pets to reoccupy treated areas until treated surfaces have thoroughly dried. **DO NOT USE THIS PRODUCT DIRECTLY ON DOMESTIC/COMPANION ANIMALS (DOGS, CATS, PUPPIES OR KITTENS).** Treat dogs and cats with a flea and tick control product before allowing them to reenter the treated area.

House Dust Mites: Apply as a surface application to carpeting, drapes, inside and on box springs, under beds, and flooring or other harborage sites at the rate of 16 ounces per 500 ft². [RF2162 Premium Aerosol] may be applied as a spot treatment to mattresses, focus applications on seams and folds. Do not use [RF2162 Premium Aerosol] directly on mattresses, pillows, bed linens or clothes. Do not saturate the mattress; and do not treat entire surface area of mattress. Allow mattress to dry thoroughly before replacing bedding.

Wasps and Yellow Jackets: Apply as a crack and crevice or void application using the supplied extension tube inserted into the actuator. Apply in indoor locations such as attics, basements or garages, or in walls. Do not apply as surface application to walls or other surfaces. Spray into crack, crevice or void area until thoroughly wet.

Spiders (including Brown Recluse & Black Widow): Apply along voids and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

Earwigs, Flies, Mole Crickets, Pillbugs, and Sowbugs: Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

Pantry Pests - Exposed Stages of Sawtoothed Grain Beetles, Flour Beetles (Red and Confused), and Cigarette Beetles: Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of shelf paper, food and utensils.

Carpet Beetles (Black, Furniture and Varied): Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

Bed Bugs – Thoroughly inspect areas of suspected bed bug infestation and note potential harborage sites or actual infestations. Remove and/or pick up clothing and other obstacles that may prevent thorough inspection or treatment. Remove and sanitize infested bedding, clothing or other items. [RF2162 Premium Aerosol] kills bed bugs and their eggs

Apply [RF2162 Premium Aerosol] on mattresses as a spot treatment to mattress seams, edges, and tufts of bed only. Do not use [RF2162 Premium Aerosol] directly on mattresses, pillows, bed linens or clothes. Do not saturate the mattress; and do not treat entire surface area of mattress. Allow mattress to dry thoroughly before replacing pillows and/or bed linens.

Bed bugs may also harbor in areas of the room away from the bed. Apply [RF2162 Premium Aerosol] as a crack and crevice, void, or spot application where evidence of bed bugs occurs. This includes bed frames, box springs, inside empty drawers and clothes closets, night stands and other furniture in the room, carpet edges, high and low wall moldings (such as floor molding or window casings), wall voids, behind wall hangings and mirrors, wallpaper edges and popcorn ceilings. Remove all clothes and other articles from dressers or closets before application. Take bed apart. Treat joints and channels if hollow, such as square or round tubing, and see that interior framework is treated. Apply [RF2162 Premium Aerosol] as a surface application to carpeting, drapes, and flooring at the rate of 16 ounces per 500 ft². Allow all treated areas to dry thoroughly before use.

If evidence of bed bugs is found in/on mattresses, use products approved for full coverage. Use [RF2162 Premium Aerosol] only for spot treatments.

OUTDOORS

Point spray nozzle away from face. Hold can on slight downward angle. For best results, spray when air is calm. Spray with wind if breeze is blowing.

PESTS ON OUTSIDE SURFACES OF BUILDINGS - For control of building infestation due to Ants(including carpenter ants, but excluding pharaoh and harvester ants), Cockroaches, Brown Marmorated Stink bugs, Asian Lady Beetles, Crickets, Earwigs, Flies and Sowbugs (Pillbugs): Spray pests directly or spray foundation of buildings where insects are active and may find entrance up to a height of 2 to 3 feet and 2-3 feet out. [RF2162 Premium Aerosol] may be applied as a spot, crack and crevice, or void treatment to outside surfaces. Apply as a spray to outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) screens, window frames, eaves, porches, patios, garages and refuse dumps. Repeat treatment as necessary but not more than once per week.

TO KILL WASPS AND YELLOW JACKETS under eaves, screens, window frames, doors, patios, cracks, holes or crevices wherever insects are noticed, spray for about 1 -2 seconds or until surfaces are moist using the supplied extension tube inserted into the actuator. To prevent entrance of insects into the house, spray around points where insects enter such as outside plumbing, faucets, etc., and cracks or crevices in foundation up to a maximum height of 3 feet, as well as along sills and ledges.

For best results, spray in early morning or late evening when insect activity is minimal. Stand a safe distance from nest and not directly underneath. Hold can upright with extension tube in actuator and point spray opening toward nest with wind at your back. Spray until nest is thoroughly saturated to kill the entire nest population. Wait at least 24 hours before removing the nest.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Do not store near heat or open flame. Store in cool dry area away from children. **PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.
